According to his 2/14 letter his outstanding demands are:

- 1) name change on the Order
- 2) an explanation of how the inspector connected the contours observed on the billboard to streams at the site
- 3) clarification on the term "restore" in the Order bc he thinks that it's not feasible to restore
- 4) a 404 permit from the Corps
- 5) assurance that a penalty will not be issued
- 6) an explanation of how we determined the streams on site had a significant nexus

Ex. 5: Deliberative Process

We also have to inform him (again) that we have the lead in the case and that we do not have an appeals process for our JDs.
